Connect to a World of Opportunities in Africa

U.S. trade to and from Africa has tripled over the past decade and U.S. exports to Sub-Saharan Africa now top \$21 billion. Africa is home to 6 of the 10 fastest-growing countries in the world. The International Monetary Fund projects Sub-Saharan Africa to grow between 5 and 6 percent each year over the next two years.

As an official U.S. Department of Commerce/U.S. Commercial Service conference and multi-sector trade mission, TRADE WINDS—AFRICA is your company's connection to business opportunities in Sub-Saharan Africa. Whether your company is new to this region or is looking to tap into new markets, this is the ideal launching point for expansion throughout the region. The conference portion will be hosted in South Africa, and you can increase your benefit by adding one or more additional participating countries to your itinerary.
